

2016 PQRS

Cardiovascular Prevention Measures Group

Measures

- #130: Documentation of Current Medications in the Medical Record
- #204: Ischemic Vascular Disease (IVD): Use of Aspirin or Another Antithrombotic
- #226: Preventive Care and Screening: Tobacco Use: Screening and Cessation Intervention
- #236: Controlling High Blood Pressure
- #317: Preventive Care and Screening: Screening for High Blood Pressure and Follow-Up Documented
- #438: Statin Therapy for the Prevention and Treatment of Cardiovascular Disease

Reporting Instructions

- (1) Identify patients with the following criteria:
 - Aged 21 years and older on date of encounter
 - Encounter during January 1 - December 31, 2016 with the following:
One of the following diagnosis codes indicating Cardiovascular Prevention:
99201, 99202, 99203, 99204, 99205, 99212, 99213, 99214, 99215, G0438, G0439
- (2) Report all applicable measures within the measures group for at least 20 patients.
 - The majority of the patients reported must be Medicare Part B Fee-for-service (FFS) patients, including Medicare Secondary and Railroad Medicare.
 - For each measure, the measure's clinical performance must be satisfied for at least 1 patient. [Note: An asterisk (*) indicates that the measure's clinical performance is satisfied.]

For additional information or clinical rationale for measures, review the CMS Measure Specification for 2016 PQRS. All measures group Measure Specifications can be found on the NJII Member Portal > Registry > Getting Started section.

Patient Information

First Name	Middle Initial	Last Name	Date of Birth	
<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	
Visit Date	Medical Record Number	Gender	Male	Female
<input type="text"/>	<input type="text"/>	Medicare FFS Patient	Yes	No

Select Measures Performance

(page 1 of 3)

* Recommended clinical performance satisfied
^ Patient is excluded from measure's performance

Select one (1) clinical action for each measure below, where applicable:

#130: Documentation of Current Medications in the Medical Record

Eligible professional attests to documenting, updating or reviewing a patient's current medications using all immediate resources available on the date of encounter. This list must include ALL known prescriptions, over-the counters, herbals, and vitamin/mineral/dietary (nutritional) supplements AND must contain the medications' name, dosages, frequency and route of administration.

- Current medications documented*
- Current medications not documented (Patient not eligible)^
- Current medications not documented (Reason not given)

#204: Ischemic Vascular Disease (IVD): Use of Aspirin or Another Antithrombotic

Patients who have documentation of use of aspirin or another antithrombotic therapy during the measurement period.

- Aspirin or another antithrombotic therapy used*
- Aspirin or another antithrombotic therapy not used (No reason documented)^
- Measures not applicable

Select Measures Performance

(page 2 of 3)

#226: Preventive Care and Screening: Tobacco Use: Screening and Cessation Intervention

Patients who were screened for tobacco use at least once within 24 months AND who received tobacco cessation counseling intervention if identified as a tobacco user.

Identified as tobacco user and cessation intervention performed*

Screened for tobacco use and identified as non-user of tobacco*

Not screened for tobacco use (Medical reason documented)^

Identified as tobacco user and cessation intervention NOT performed

Not screened for tobacco use (No reason documented)

#236: Controlling High Blood Pressure

Patients whose blood pressure at the most recent visit is adequately controlled.

Most recent blood pressure reading < 140/90*

Most recent blood pressure reading \geq 140/91

No documentation of blood pressure reading (Reason not documented)

#317: Preventive Care and Screening: Screening for High Blood Pressure and Follow-Up Documented

Patients who were screened for high blood pressure AND have a recommended follow-up plan documented, as indicated, if the blood pressure is pre-hypertensive or hypertensive.

Normal blood pressure reading documented, follow-up not required*

Pre-Hypertensive or Hypertensive blood pressure reading documented, AND the indicated follow-up is documented*

Blood pressure reading not documented (Patient not eligible)^

Pre-Hypertensive or Hypertensive blood pressure reading documented, indicated follow-up not documented (Patient not eligible)^

Blood pressure reading not documented (Reason not documented)

Pre-Hypertensive or Hypertensive blood pressure reading documented, indicated follow-up not documented (Reason not documented)

Select Measures Performance

(page 3 of 3)

#438: Statin Therapy for the Prevention and Treatment of Cardiovascular Disease

Patients who are statin therapy users during the measurement period or who receive an order (prescription) to receive statin therapy at any point during the measurement period.

Patients who are currently statin therapy users or received an order (prescription) for statin therapy*

Not receiving therapy (Medical reason documented)^

Patients who are not currently statin therapy users or did not receive an order (prescription) for statin therapy
