

Measures

- #130: Documentation of Current Medications in the Medical Record
- #191: Cataracts: 20/40 or Better Visual Acuity within 90 Days Following Cataract Surgery
- #192: Cataracts: Complications within 30 Days Following Cataract Surgery Requiring Additional Surgical Procedures
- #226: Preventive Care and Screening: Tobacco Use: Screening and Cessation Intervention
- #303: Cataracts: Improvement in Patient's Visual Function within 90 Days Following Cataract Surgery
- #304: Cataracts: Patient Satisfaction within 90 Days Following Cataract Surgery
- #388: Cataract Surgery with Intra-Operative Complications (Unplanned Rupture of Posterior Capsule Requiring Unplanned Vitrectomy)
- #389: Cataract Surgery: Difference Between Planned and Final Refraction

Reporting Instructions

- (1) Identify patients with the following criteria:
 - Aged 18 years and older on date of encounter
 - Encounter during January 1 - December 31, 2016 with the following:
 - One of the following diagnosis codes indicating Cataracts:
66840, 66850, 66852, 66920, 66930, 66940, 66983, 66984
- (2) Report all applicable measures within the measures group for at least 20 patients.
 - The majority of the patients reported must be Medicare Part B Fee-for-service (FFS) patients, including Medicare Secondary and Railroad Medicare.
 - For each measure, the measure's clinical performance must be satisfied for at least 1 patient. [Note: An asterisk (*) indicates that the measure's clinical performance is satisfied.]

For additional information or clinical rationale for measures, review the CMS Measure Specification for 2016 PQRS. All measures group Measure Specifications can be found on the NJII Member Portal > Registry > Getting Started section.

Patient Information

First Name	Middle Initial	Last Name	Date of Birth	
<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	
Visit Date	Medical Record Number	Gender	Male	Female
<input type="text"/>	<input type="text"/>	Medicare FFS Patient	Yes	No

Select Measures Performance

(page 1 of 3)

- * Recommended clinical performance satisfied
- ^ Patient is excluded from measure's performance

Select one (1) clinical action for each measure below, where applicable:

#130: Documentation of Current Medications in the Medical Record

Eligible professional attests to documenting, updating or reviewing a patient's current medications using all immediate resources available on the date of encounter. This list must include ALL known prescriptions, over-the counters, herbals, and vitamin/mineral/dietary (nutritional) supplements AND must contain the medications' name, dosages, frequency and route of administration.

- Current medications documented*
- Current medications not documented (Patient not eligible)^
- Current medications not documented (Reason not given)

#191: Cataracts: 20/40 or Better Visual Acuity within 90 Days Following Cataract Surgery

Patients who had best-corrected visual acuity of 20/40 or better (distance or near) achieved within 90 days following cataract surgery.

- Achieved*
- Not Achieved
- Measure not applicable^

Select Measures Performance

(page 2 of 3)

#192: Cataracts: Complications within 30 Days Following Cataract Surgery Requiring Additional Surgical Procedures

Patients who had one or more specified operative procedures for any of the following major complications within 30 days following cataract surgery: retained nuclear fragments, endophthalmitis, dislocated or wrong power IOL, retinal detachment, or wound dehiscence.

NOTE: A lower calculated performance rate for this measure indicates better clinical care or control.

Surgical procedure performed within 30 days due to major complications

Surgical procedure not performed within 30 days*

Measure not applicable^

#226: Preventive Care and Screening: Tobacco Use: Screening and Cessation Intervention

Patients who were screened for tobacco use at least once within 24 months AND who received tobacco cessation counseling intervention if identified as a tobacco user.

Identified as tobacco user and cessation intervention performed*

Screened for tobacco use and identified as non-user of tobacco*

Not screened for tobacco use (Medical reason documented)^

Identified as tobacco user and cessation intervention NOT performed

Not screened for tobacco use (No reason documented)

#303: Cataracts: Improvement in Patient's Visual Function within 90 Days Following Cataract Surgery

Patients 18 years and older who had improvement in visual function achieved within 90 days following cataract surgery, based on completing a pre-operative and post-operative visual function survey.

Improvement achieved within 90 days*

Patient care survey was not completed by patient^

Improvement not achieved within 90 days

Select Measures Performance

(page 3 of 3)

#304: Cataracts: Patient Satisfaction within 90 Days Following Cataract Surgery

Patients who are statin therapy users during the measurement period or who receive an order (prescription) to receive statin therapy at any point during the measurement period.

- Satisfaction with care achieved within 90 days*
- Patient care survey was not completed by patient^
- Satisfaction with care not achieved

#388: Cataract Surgery with Intra-Operative Complications (Unplanned Rupture of Posterior Capsule Requiring Unplanned Vitrectomy)

Patients who are statin therapy users during the measurement period or who receive an order (prescription) to receive statin therapy at any point during the measurement period.

NOTE: A lower calculated performance rate for this measure indicates better clinical care or control.

- Unplanned rupture of the posterior capsule requiring vitrectomy
- No unplanned rupture of the posterior capsule requiring vitrectomy*
- Measure not applicable^

#389: Cataract Surgery: Difference Between Planned and Final Refraction

Patients who are statin therapy users during the measurement period or who receive an order (prescription) to receive statin therapy at any point during the measurement period.

- Patient achieves refraction +/-1 D *
- Patient does not achieve refraction +/-1 D
